The faded cheek, the pale and wan features, the dull eye, the clouded intellect the deep heaving sigh, the feeble and emaciated frame, the dejected brow, the tottering gait, all indicate previous transgression of law. Knowing that "procrastination is the thief of time," all intelligent beings apply for some remedy as soon as circumstances permit; while those who do not act upon the principle that "delays are dangerous," generally linger, lose more time and pay more money.

Thousands of mothers and daughters, in all stations and conditions of life, are suffering, lingering and dying from the effects of some dreaded and dreadful

FEMALE COMPLAINT, That claims its victims throughout the

length and breadth of our land. Many females suffer in some way at each monthly period; some girls are in great peril at the commencement of menstruation, while older ones dread its decline at the "turn of life." Sometimes the menstrual

flow is too much, or too little, or may be attended with pain; may be irregular or entirely checked, or changed in appearance, attended with other distressing symptoms. Leucorrhœa, or the "Whites," frequently drains the system, or ulceration of the womb may create pain and cause rapid prostration. Falling of the womb is an exceedingly common complaint, giving much trouble and distress, which, under ordinary treat-

ment, is difficult to cure. Hysterics. Green Sickness, Irritability of the Womb, and other serious and fatal com plaints follow the female sex throughout life. Lives there a medical gentleman who has or can relieve the fair sex of the above troubles? Not many. Is there no combination of remedial agents that will come to her rescue? We answer, Yes.

ENGLISH FEMALE BITTERS. The only acknowledged Uterine Tonic and Female Regulator known, will cure all those complaints above mentioned in an incredibly short time. The Bitters at once arouses, strengthens and restores the womb to its natural condition, removing obstruc-tions, relieving pain and regulating the monthly period. Yonder stands a pale, feeble and languid girl, just bursting into womanhood; she is the pride of all, but hark! she silently steals a pickle, eats chalk, or a slate pencil; no appetite for food; she turns with a dull eye and seeks solitude; her eye no longer sparkles; her merry laugh is no longer heard ringing through the air; she mopes about with bloodless lips and gums, with headache, palpitation, constipation, swimming of the head, cold feet and hands, melancholy; she

host of other evils too numerous to mention When neglected all these symptoms become aggravated, there is sick stomach, heartburn, a dark line settles under the eyes, the legs and ankles are swollen, the hair loses its gloss and falls off, there is brittleness splitting of the finger-nails, swol len abdomen, extreme nervousness, fretfulness, pains and aches, dry cough, Hysterical Fits, rapid prostration, epilepsy and death! If you, or any of your friends, are thus afflicted, send at once for a Bottle of English Female Bitters and be cured. Its effects Sample Cards at O'Hara's Drug Store are magical in such complaints. Surely no mother will postpone and delay this duty

has a coated tongue, offensive breath, and a

Death is at the Door.

In all these complaints the system evi-dently shows a want of red blood, and Mr. Churchill, in his work on Thisease of Females, says: "Bearing in mind that the blood is remarkably deficient in red corpuscles, and the known property of iron to correct this condition, theory suggests it as the most to be relied on, the best of which is the Citrate." Citrate of Iron enters largely into the composition of English Female Bitters, combined with powerful vegetable tonics of rare qualities.

Among the mountains of Tennessee and the piney woods of Mississippi, is found a certain hard and flinty root, which has been in secret use by some old midwives for many years, possessing magic powers in regulating and restoring all females suffering with any affection of the womb. This root we have obtained, gave it a fair test in our practice and it is now one of the principle ingredients in these Bitters, Other powerful uterine and general tonics also enter into its composition. We also add Leptandra or Black root, sufficient to act upon the liver and keep the bowels open.

BLOOMING YOUNG GIRLS, Middle-aged matrons, those at the critical period, and the aged grandmother, are all cured by the use of our English Female Bitters, now prescribed and used by physicians all over the country. If you are troubled with Falling of the

Womb, attended with a sense of weight and bearing down pain in the back and side, and other attendant evils, English Female Bitters will give entire relief.

Bitters will give entire relief.

Those at the "turn of life," mothers after confinement, and all others (male or female) who are convalescents from any protracted or debilitating complaint, who gain strength slowly, and whose digestion is slow and imperfect, will find those Bitters the very thing their system demands. It gives a powerful appetite, aids and assists digestion, arouses the liver, strengthens mentally and physically, and fills the whole system with pure crimson blood coursing through its channels.

ONE HUNDRED DOLLARS That one tablesseconful of ENGLISH FEMALE BIT-TERS contains as much medicinal properties as one bottle of any of the pleasantly tasted common advertised bitters of the day! The medical profession to deside the question. Be it understood that English Female Bitters is not a beverage, but is a powerful Iron and Vegetable Tonic combined, cur-ing long standing chronic female complaints in every direction. Put - v in large bottles at \$1.50 per bottle, or six bottles for 38.00, and sold by druggists and merchants everywhere.

THE proprietor of this celebrated medi-cine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fe-ver, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been specked more especially disease has been checked, more especially
